

## Behringer Interchange Update

Behringer Has Over 45,000 Filter Element Interchanges!!!

Interchange filter elements for most major producers are available from stock or with minimal lead times. Hard to find European and Japanese products, as well as custom elements can be manufactured in very low production runs. Behringer® specializes in high quality high efficiency hydraulic filter elements with Beta ratios frequently exceeding  $B_x = 200$ .

This month we are making you more aware of the Schroeder hydraulic filter elements. Behringer offers a wide variety of interchange Elements to the following Schroeder Series: 16QPML, 31QPML, 8TS, A, AS, BB, BBS, C, CS, CC, CCS, CCSX, D, DD, DS, DDS, J, JS, K, KS, KSX, M, MS, SBK. Below is a brief excerpt from the K Series Interchanges. Please visit our website for a more complete listing of over 1100 Schroeder Interchanges.
